## WHERE THE JOURNEY BEGAN

As a child, I always wanted to work in an orphanage. As time passed, however, I took a different path; I married young and had four beautiful children. For six wonderful years my family and I lived in Papua New Guinea with one of my children being born there. I particularly enjoyed the country, culture and simplicity of living.

I returned to Australia and started working as a Teacher Aide in the library at Walkervale State School. With the encouragement of my friend and mentor Lesley Bath, I worked and studied full-time for approximately 70 hours a week to become a primary school teacher. I loved the daily challenge of helping children reach their full potential, and I continue to work full time with children and books in my current role as the Teacher-Librarian at Walkervale. My passion for working with children has never wavered.

## FURTHER DOWN THE ROAD

My second passion is travel, and I have been fortunate enough to travel extensively around this big, wide world. I first visited Kenya in 2010 to do a safari as part of a three month round-the-world trip, and I instantly fell in love with the land and the people.

My travel companions and I were overwhelmed with the poverty we were faced with in Kenya and Rwanda and the depths of despair the people tackled daily. I had seen poverty in many countries, and been touched by much human suffering, but Kenya affected me deep within my soul. We opened our wallets and hearts. But that was just the beginning.

## THE PATH TO THE PURPOSE

Back in Australia, I vowed to return to volunteer in a local village school in the June 2011 school holidays. Destiny played its part and I decided that I would find an orphanage to work at myself rather than a school. I did some fundraising within my workplace and received donations from family and friends, which the orphanage was very grateful for.

I returned to the East coast of Kenya in June 2011 and volunteered at 2 orphanages near Ukunda and Mombasa. I also did voluntary work in the local school and was overwhelmed at the class sizes, lack of resources, and poverty within the rural villages and schools. Overall, it was one of the most rewarding experiences of my life.

I had to go back, even if it was just to help one child. I told myself that I could sit here and do nothing, or I could sit here and do something. I kept thinking of an African proverb: *it takes a whole village to raise a child*. I would start my own charity and begin fundraising to build my own orphanage.

## REACHING THE DESTINATION

Destiny now has me on a journey where as a child I imagined I would be. On the 30<sup>th</sup> July, 2011, I launched my own non-profit organisation – Umoja Orphanage Kenya. *Umoja* is Swahili for unity and togetherness, and I am relying on the support of family, friends and strangers to help me achieve my dream. ***Together we will achieve the extraordinary.***

I have a wonderful leadership team—Lesley, Gaye, Shannyn, and Kerrie-Anne—who work together to achieve the extraordinary. Umoja is also a project of Rotary Australia World Community Services (RAWCS) and the support we have received from Rotary clubs, both in Australia and overseas, has been fantastic. I have made lifelong friendships with some of the most genuine and generous people I have ever met

**Umoja's mission is to provide a real alternative to child abandonment in Kenya.** We will give children a second chance at life where they can reach their full potential in a safe and secure environment. Through a holistic care approach we will help children and communities **break the cycle of poverty.**

Umoja's goal is to build individual children's homes, where children will be homed in a 'family' environment. We began construction of our first children's home in October 2014 to take in our first little people who will be given a second chance at life. *Umoja Children's Village – Ukunda* will be self-sustainable through a permaculture model by farming crops and animals and selling excess produce to the surrounding villages. A safari side-business will also return profits back into the project to help pay local staff who will work in our orphanage. By employing local Kenyans we can provide invaluable skills for the future.

## WHY KENYA?

Kenya is, by every economic indicator, one of the poorest countries in the world.

The situation of a large proportion of Kenya remains acute due to: socio-economic, cultural, traditional, development circumstances, natural disasters, conflicts, exploitation and hunger. HIV/AIDS has had a large effect on the country and there are now estimated to be more than **2 million Kenyan orphans**, with more than 50% of these due to AIDS.

The Umoja orphanage will be established in Kenya to assist the plight of orphaned children and to provide nutrition, shelter, education and a future in a loving environment.

## UMOJA'S MISSION

The Umoja Orphanage Project will be a real alternative to child abandonment, offering interim and long-term care to orphaned children and preventing vulnerable children from becoming abandoned.

Without the Umoja Children's Village orphaned and abandoned children will continue to face uncertain futures, death and an indeterminate stay in the local government hospital. Every child deserves the basic needs for survival and the chance to reach their full potential.

We will create an environment that provides:

- **food** and nutritional support
- **shelter** where children can feel safe and secure
- **protection** from all forms of abuse
- **care** - acceptable health care services
- **support** - psychosocial and emotional support
- **education** - educational and vocational assistance and training
- **spirituality** - the right to fulfil their spiritual and religious beliefs
- **opportunity** - to realise their physical, mental, and social potential
- **guidance** - to realise their rights and responsibilities and understand shared values
- **belonging** - unconditional love and a sense of belonging
- **hope** for the future.

## WHO WILL THE UMOJA PROJECT HELP?

Umoja Orphanage Kenya aims to help children and communities break the cycle of poverty.

Umoja Orphanage Kenya will assist:

- ✓ **Orphaned and vulnerable children** aged 0 - 16
- ✓ **Local widowed mothers**—employed as house mothers and house aunties
- ✓ **Local tradesmen and community**—through the building of the project buildings and ongoing maintenance
- ✓ **Local businesses**—through purchase of materials, livestock and supply of goods from agricultural gardens on site
- ✓ **The local community** – conducting first aid clinics free to the community 1 – 2 times a year
- ✓ **Disabled local village people**—to help teach skills of the Kenyan culture
- ✓ **Local villagers**—in vocational training and employment
- ✓ **Local taxi drivers**—transporting volunteers to our project and from airport
- ✓ **Local storekeepers**—to provide initial food
- ✓ **Neighbouring villages**—by sharing of our water supply
- ✓ **Training community volunteers** in practical support, material support, emotional support, educational support, recreational support, legal support, cultural & religious support, guidance on water and sanitation & health promotion
- ✓ **Community sharing**—through sporting fixtures, social events, first aid clinics and donations in kind to the local community

**Umoja Orphanage Kenya** offers a real alternative to child abandonment. Through a holistic care approach, we give children a second chance at life and help break the cycle of poverty. On 15 acres of fertile land in Ukunda, we are building a children's village to accommodate individual family style homes. We are on the road to self-sustainability by sourcing our own food from our fruit and vegetable gardens, chicken, goat, sheep and dairy farm. Donate to Umoja today and help orphaned and vulnerable children reach their full potential.
